VIDEO: How to use this page

Last snapshot: 05/01/2020 12:35pm

This page allows you to build and customize your data collection instruments one field at a time. You may add new fields or edit existing ones. New fields may be added by clicking the Add Field buttons. You can begin editing an existing field by clicking on the **Edit** icon. If you decide that you do not want to keep a field, you can simply delete it by clicking on the **Delete** icon. To reorder the fields, simply **drag and drop** a field to a different position within the form below. Are you using Action Tags yet? If not, learn about Action Tags here.

Add Field | Add Matrix of Fields

Variable: consent_information

This study seeks to explore how the COVID-19 outbreak has influenced caregivers, children, and families. This study involves a range of questionnaires regarding the impacts of COVID-19 on parents and children, and a short writing prompt that allows parents and children to write about the impacts of COVID-19 on their family and self. Parents and children will not directly benefit from participating in the research. However, the results will contribute to a greater understanding of the impact COVID-19 is having on families and will be used to create better family-relevant resources in the future.

Your participation will take 45 minutes. We ask that you complete the questionnaires close together in time. However, you do have the opportunity to save the survey and come back later to complete it.

At the end of the study (July 31st), we will draw the raffle for the 20 $100 gift cards. Please remember to enter your details at the end of the survey to enter the draw.
