

General Medical Fears Questionnaire
(Made for the Parent-Child-COVID Study)

Adapted from FCCS-R (child)

Directions: A number of statements which boys and girls use to describe the fears they have are given below. Read each carefully and put an **X** in the box in front of the words that best describe your child's fear. There are no right or wrong answers. Remember, find the words which best describe how much fear your child has.

(1) None

(2) Some

(3) A lot

1. Death or dead people
2. having to go to the hospital
3. Not being able to breathe
4. Going to the doctor
5. Going to the dentist
6. Germs or getting a serious illness
7. Getting a shot from the doctor

The Unknown (1)

Danger and Death (3, 6)

Medical Fears (2, 4, 5, 7)

Ollendick, T. H. (1983). Reliability and validity of the revised fear survey schedule for children (FSSC-R). *Behaviour research and therapy*, 21(6), 685-692.

General Medical Fears Questionnaire
(Made for the Parent-Child-COVID Study)

Adapted from FCCS-R (parent)

Directions: A number of statements which men and women use to describe the fears they have are given below. Read each carefully and put an **X** in the box in front of the words that best describe your fear. There are no right or wrong answers. Remember, find the words which best describe how much fear you have.
